August, 1967.

TO: The Chairman and Members of the CHICHESTER RURAL DISTRICT COUNCIL.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present to you the Annual Report on the health, social and sanitary conditions of the Chichester Rural District during the Year 1966.

I would like to express my appreciation to the Chairman of the Council, the Chairman of the Public Health Committee and Members for their support, to all Departments of the Council for information which they have supplied for inclusion herein, and to the Staff of the Public Health Department for their work during the Year.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

V.P. GEOGHEGAN

Medical Officer of Health.

- 4 -

INTRODUCTION

Milk is a commodity distributed in this country on a colossal scale and the householder takes for granted the daily delivery of his milk requirements. He seldom, if ever, gives a thought to the organisation behind this routine daily service. There have, however, been indications in the press that retail dairies have difficulties in maintaining the service and that the public may find in the future that delivery of milk daily, seven days a week, may not always be possible.

The labour troubles of the dairy trade may not be peculiar to that trade, and in any case are not perhaps the concern of the public. But the public does have some responsibility particularly for milk bottles; to ensure that empty bottles are not hoarded and that they are available for collection and return to the distributor in a really clean condition.

Dairies use bottle washing machines which are a triumph of efficiency and ingenuity, and with very rare exceptions no bottle is delivered to a customer which is not scrupulously clean before it is filled. However, unless the customer takes care to rinse all milk bottles before the milk residue has hardened into a film the cleansing of bottles becomes a very difficult task indeed for the dairy concerned. Furthermore, it is a punishable offence to use milk bottles for such fluids as paraffin, turpentine and petrol.

A development in milk delivery which may alleviate some of the present difficulties is the use of disposable containers. Those in use experimentally in part of the district are pyramid shaped cartons which have proved satisfactory so far. The chief points in their favour are: cleanliness; ease of handling; elimination of "returns" and replacements. In the first place a large caravan site was chosen for the first trial and this has been a complete success. Before such a system becomes widespread, however, the public will have to learn to forget its present preference for glass bottles in which the milk can be seen.

The district still has problems in drainage, and although an immense amount has been done in the last twenty years and very large sums of money have been spent, such progress is small consolation to ratepayers who still have to tolerate conditions which are unsatisfactory to say the least.

It will be some years before virtually all parts of the district are satisfactorily sewered, but the Council is doing as much as is physically and financially possible, and the work must necessarily be phased in degrees of priority. Thus the contract for the South West Area Sewage Works has been awarded, and work on Stage III of the Aldingbourne and District Scheme should start before long.

Again, neither of these two projects will help the inhabitants of some half-a-dozen areas in other parts of the district, all of whom feel, naturally, that their particular scheme has been unfairly placed in the priority list. It is inevitable that the public must continue to be patient until, future financial crises permitting, all the schemes which the Council is anxious to put in hand are completed.

STATISTICS AND SOCIAL CONDITIONS

The Chichester Rural District, one of the largest in the country, covers the South-Western quarter of the County of West Sussex.

Formed under the West Sussex Review Order of 1933, when the Westbourne and Westhampnett Rural Districts were combined, it lies on the sea coast with the River Arun at its Eastern boundary and the County boundary between West Sussex and Hampshire to the West. The Northern boundary lies on the South Downs.

The City of Chichester is almost in the centre of the district, and being the County Town, it houses the headquarters of the West Sussex County Council, the Chichester City Council and the Chichester Rural District Council. Bognor Regis lies towards the Eastern boundary of the coast line.

Farming, the distributive trades, and local government administration employ the bulk of the population inland, while the coastline - seventeen miles long - includes the popular resorts of Middleton-on-Sea, Pagham, Selsey, Bracklesham Bay and the Witterings, and attracts a large number of Summer visitors.

VITAL STATISTICS

1966	9	4	5	11.45	15.4	

Vital Statistics (Contd.)

As the tables covering the last ten years on Page 11 show (allowing for random variations from year to year, which are inevitable where relatively small figures are concerned) the crude birth rate, about 15 per 1,000, and the crude death rate, about 11.0 per 1,000, remain steady. In a population with a high proportion of old people the crude birth rate would be expected to be less than the national figure - 17 per 1,000; but the crude death rate would tend to be higher than the national rate - 11 per 1,000. The fact that it remains steadily less demonstrates the longevity of Sussex people.

1965	624	339	285	11.01	8.58	9.2	10.0	11.5
1966	616	336	280	10.63	8.29	9.1	10.1	11.7

The chief causes of death were :	1966	1965
(i) Diseases of heart and circulatory system	224(36%)	226 (36%)
(ii) Neoplasms (growths)	127(20%)	148(23%)
(iii) Vascular lesions of nervous system	89(14%)	92(14%)
(iv) Respiratory diseases (exclud. Tuberculosis)	77(12%)	71(11%)

Of the total deaths, 457 or 74% occurred in persons aged 65 years or over, and of these, 288 or 47% of the total deaths occurred in persons aged 75 years or over. The table on Page 10 shows the age, sex distribution and causes of death during 1966.

The natural increase in population, i.e., the number of births minus the number of deaths, is 161, while the Registrar-General's estimated midyear home population shows an increase of 1,240 over the 1965 figure.

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA

Hospitals:

The hospitals providing accommodation and treatment for residents of the District are administered by the South-West Metropolitan Regional Hospital Board and are as follows:

Hospital	Telephone Number	Number of Beds
General Hospitals:		
ROYAL WEST SUSSEX HOSPITAL :		
St. Richard's Hospital, Spitalfield Lane, Chichester	Chichester 82671	400
Broyle Road, Chichester	Chichester 82685	202
Bognor Regis War Memorial Hospital, Bersted Street, Bognor Regis	Bognor Regis 418	32
Southlands Hospital, Shoreham-by-Sea	Shoreham 2381	411
Cottage Hospitals:		
Midhurst Cottage Hospital, Easebourne	Midhurst 105	22
Petworth Cottage Hospital	Petworth 2106	13
Chest Hospitals:		
Aldingbourne Chest Hospital and Chest Clinic, Norton, Near Chichester	Eastergate 2229	54
Aldingbourne Chest Hospital Annexe, Hawthorn Road, Bognor Regis	Bognor Regis 151	45
Infectious Diseases Hospital:		
Royal West Sussex Hospital, ISOLATION, Spitalfield Lane, Chicheste	Chichester r 82126	16
Maternity:		
Zachary Merton Maternity Hospital, Rustington, Sussex	Rustington 1515	54
Sussex Maternity Hospital, 80 Buckingham Road, Brighton	Brighton 25741	62

Laboratory Service:

The Central Laboratory, Milton Road, Portsmouth, under the Director, Dr. D.J.H. Payne, continued its prompt and efficient service. The following examinations were carried out during 1966:-

Nature of Specimen	•		Number
Milk	0 0	• •	9
Cream	• •	0 0	2
Ice Cream	0 0	0 0	22
Water	0 0	0 0	46
Swimming Poo	l Waters	0 0	26
Drain Swabs	o o	• •	14
Blood	• •	0 0	2
Smears and V	esicle Fluid	• •	1
Faeces	0 0	0 0	102
Chicken Feed	l	• •	<u> </u>
	TOTAL		225

Seventy-four sewage samples taken from various Council sewerage systems were examined by the Chemist of the Havant and Waterloo Urban District Council.

Ambulances:

The Local Health Authority (the West Sussex County Council) provides an ambulance service (including the Hospital Car Service) and ambulances operate from Bognor Regis, Chichester and Littlehampton under radio control.

Home Nursing and Midwifery:

General District Nurses, Midwives, Health Visitors and School Nurses, are employed by the West Sussex County Council to serve in the Rural District.

Treatment Centres and Clinics:

Ante-Natal Clinics	-	held at Chichester, Bognor Regis and Selsey.
Audiology Clinic) Child Guidance Clinic)	C	held at Chichester.
Eye Clinics	-	held at Chichester and Bognor Regis
Infant Weighing Centres	-	held at East Wittering, Funtington, Hunston, North Mundham, Oving, Sidlesham, Tangmere, Walberton, and Yapton.
Dental Clinics	0	held at Chichester, Bognor Regis, and a Mobile Dental Unit at some Schools.
Infant Welfare Clinics		held at Aldingbourne, Aldwick, Bognor Regis, Bosham, Chichester, Felpham, Pagham, Selsey, Southbourne, Thorney Island

Treatment Centres and Clinics (Contd.)

Orthopaedic Clinic - held at Chichester and Littlehampton.

School Children (Minor

Ailments) - held at Bognor Regis.

Speech Theraphy Clinics - held at Chichester, Bognor Regis,
Littlehampton, and in Schools.

Chest Clinic - held at Aldingbourne Chest Hospital.

Venereal Diseases Clinic - held at Royal West Sussex Hospital St.
Richard's, Chichester; St. Mary's
Hospital, Portsmouth; and Worthing
Hospital.

Nursing Homes.

There is one Nursing Home for children in the District registered by the West Sussex County Council under Section 187 of the Public Health Act, 1936.

National Assistance Act, 1948.

- (a) Section 47. No statutory action was necessary.
- (b) Section 50. One burial was carried out during 1966.

Mass Radiography.

The Portsmouth Mobile Mass Radiography Unit visits the Cattle Market, Chichester, every Tuesday from 10 a.m. to 10.30 a.m. The Unit also visits Bognor Regis on the same day between the hours of 11 a.m. and 11.30 a.m.

SANITARY CIRCUMSTANCES OF THE AREA

Water Supply

The Undertakings supplying water to the Rural District at the 31st December, 1966, were as follows:

Portsmouth Water Company (virtually supplying the whole area). North West Sussex Water Board (part of Upwaltham Parish only). Worthing Corporation (part of Tortington Parish only).

All water supplied by the statutory water undertakings is chlorinated before distribution. The supplies are constant and generally adequate to meet the demands of the distribution areas.

The fluoride content of drinking water supplied in the District is less than O.l parts per million.

98.3 of houses have a piped water supply from one or other of the water undertakings, and of the remaining houses, 0.87% have a piped supply from private estates, so that over 99% of dwellings have piped water.

Madehurst is the only parish without a public mains supply in regular use, although facilities are available to enable mains water from the Portsmouth Water Company to be pumped into the private estate pipe line should the need arise.

The table on Page 16 shows the number of dwellings and means of water supply for each Parish in the Rural District.

Portsmouth Water Company.

This Company is virtually the sole supplier of water throughout the district as they provide a supply to 40 out of the 42 parishes concerned, and even in Madehurst, as mentioned above, facilities are available to enable the Company's mains water to be pumped into the private estate mains.

Water supplies for the district are obtained from the following bores or wells:

Fontwell Avenue Waterworks, Eastergate Westergate Woods, Aldingbourne Fishbourne Waterworks Woodmancote Waterworks
Funtington Waterworks

Progress has been made with a system of automatic control and all pumping stations in the Rural District are now under remote surveyance from the Company's control room at Havant.

The Company are shortly to lay a new trunk main between Woodmancote Pumping Station and Racton Reservoir, and when this is completed the Woodmancote Pumping Station is likely to be relegated to a standby basis.

Water storage is provided in the following service reservoirs:

North West Sussex Water Board

This Authority supplies water to the Parish of Upwaltham by means of a Private reservoir near the border of, but within, the Petworth Rural District.

Only a small number of properties are supplied from this source.

Worthing Corporation.

A number of properties in the Tortington Parish only of the Chichester Rural District are supplied from this source. This Undertaking originally comprised the Arundel Borough Council supply together with the private supply of the Duke of Norfolk.

Private Estate Supplies.

Sampling of supplies operated by private estates again showed variable results.

Water Analyses.

Samples of water taken from various sources and submitted for bacteriological examination gave the following results:

	No.of	BA	CTERIOL	GICAL
Source	Samples	Satis-	Suspi-	Unsatis-
	taken	factory	cious	factory
Portsmouth Water Company	18	18	gas	~
Private Estate Supplies	22	5	3	14
Individual Bore or Well Supplies	6	2	1	3
TOTALS	46	25	4	17

The sampling programme of the Portsmouth Water Company is arranged so as to give regular coverage of the whole of the area of supply. In general, weekly bacteriological samples are taken of each source, both of the water leaving the works and in the distribution system.

Drainage and Sewerage.

I am indebted to the Council's Engineer and Surveyor, and to his staff, for the details recorded under this heading and under Public Cleansing.

Sewer Extensions.

Work commenced in November on an extension to the Aldingbourne and District Sewerage Scheme in West Walberton Lane. At Birdham Road, Appledram, the sewer extension commenced in 1965 was completed.

Improvements and extensions were commenced to the Sewage Disposal Works at Bosham, Lidsey and Tangmere.

Sewer Adoptions.

Parish	<u>Details</u>	Date of Adoption
Barnham Donnington Eastergate North Bersted	- Nurseries Site - Foul and surface water - Southfields Close - Foul sewer - Highview Estate - Foul sewer - Sherwood Estate - Foul sewer	1. 6.66. 5.10.66. 5.10.66. 1. 6.66.

Refuse Collection.

The weekly rear collection of refuse has been maintained. The quantity of refuse collected annually during the past three years is set out herewith :-

Year	Number of Vehicles	Number of Loads	Total Cubic Yards	Mileage
1966	14 <u>1</u>	4,835	121,510	120,578
1965	12 <u>1</u>	5,417	114,459	121,395
1964	11 <u>1</u>	5,920	116,698	122,451

All refuse was disposed of at the Council's Tips at Slindon Bottom; Ferry Road, Sidlesham; and Hambrook Marlpit.

Refuse Collection (Contd.)

Two new refuse collecting vehicles - a Eagle Crushload and a Arenco-Alite Norba - were were added to the fleet in April, 1966.

Special collections of refuse, in addition to the normal weekly service, were again provided to nine hotels, holiday camps, car parks or caravan sites, during the Summer months.

Salvage.

Income decreased from £10,759 in 1965, to £9,279 during the year, and details of the various items disposed of are set out herewith:

Material.		Weight.	Value.	
Material.	Tons	Cwts.	Qrs.	£. s. d.
Mixed Paper	375	1	2	3,2 8 1. 18. 0.
Newspaper	225	17	1	2,032.15.3.
Fibreboard	244	10	3	2,506.10.5.
Rags	35	4	1	1,397. 5. 6.
Metal				60. 2. 0.
TOTALS	880	13	3	£ 9,278. 11. 2.

Cesspool Emptying.

The Council continues to provide a rateborne cesspool emptying service, which allows one free emptying at intervals of three months, to premises where connection to the main sewer is not possible. Where a main sewer is available to properties, emptyings of cesspools are only undertaken upon payment of the requisite fee.

One new cesspool emptier of 2,000 gallons capacity was put into service in April, 1966.

Details of work carried out during the year, together with comparative figures for the two previous years, are set out herewith:

Year	Number of Vehicles	Total Cesspools emptied	Total Vehicle Loads	Total Gallonage	Total Mileage
1966	12	15,055	21,777	21,777,000	265,029
1965	11 1	14,297	20,120	20,120,000	251,038
1964	10	14,594	19,234	19,234,000	235,762

Cesspool contents are deposited into the various sewerage systems. Bin Scheme.

The Council continue to operate a local authority owned bin scheme whereby refuse bins are hired to property owners at 7/6d. per annum.

Pail Closets.

The Council do not undertake the collection and disposal of pail closet contents.

Public Conveniences.

Public conveniences provided by the Council are situated at Bosham; Bracklesham Bay; Pagham Beach; East Street and Marine Hotel Site, Selsey; and off Shore Road, West Wittering. New conveniences are also to be provided at Pound Road, West Wittering in 1967.

Rivers and Streams.

No action was necessary in connection with the prevention of pollution of any of the rivers and streams in the district.

A total of 80 inspections were made in connection with complaints of pollution of ditches or to rectify stoppages caused by neglect.

Clean Air Act, 1956.

Eighteen complaints of smoke nuisance were received, nine of which were justified, resulting in the service of five informal notices.

In addition, two contraventions were also observed and resulted in informal action.

Caravans and Camping.

Details of caravan sites licensed during 1966, together with the numbers of sites licensed during the previous five years, are set out herewith:

		1966	1965	1964	1963	1962
Number of :						
Licensed Sites -	Holiday	180	181	183	181	182
220011204 22002	Residential	28	25	23	17	19
Caravans allowed						
by licence:	Holiday *	7103	7232	6790	5998	5660
·	Residential	414	388	387	373	323
Inspections:		589	540	612	480	612

* Figure excludes site with 94 caravans in use but not licensed due to planning position not having been resolved.

In addition, four sites in the District are licensed for a total of 380 tents.

Contraventions.

Number observed Informal Notices served		29 21
Number of complaints: Received Justified	0 0	16 9
Informal Notices served		8

Legal Proceedings.

Proceedings were taken under Section 1 of the Caravan Sites and Control of Development Act, 1960, in respect of two sites. The Court imposed fines of £5 and £3 respectively.

Noise Abatement Act, 1960.

Thirteen complaints were investigated, seven of which were justified and resulted in the service of nine informal notices. Ninety visits were made in connection with the Act.

Swimming Baths and Pools.

There are no public swimming pools in the District, but nine holiday centres have pools available for the use of residents of the centres.

Many schools also have swimming pools installed.

Twenty-six samples of swimming pool water were submitted to the Public Health Laboratory for becteriological examination.

Eradication of Bed Bugs and Other Verminous Conditions.

No complaints of bug infestation were received. Verminous conditions due to various other causes were dealt with at a number of premises during the year, entailing 115 visits. Disinfestations were either carried out by the Department or suitable advice given.

Rag Flock and Other Filling Materials Act, 1951.

One factory in the district is registered under this Act.

Pet Animals Act, 1951.

Two applications for renewal of licences to keep pet animals were received and approved during the year.

Animal Boarding Establishments Act, 1963.

Fourteen applications for licence under this Act were received and approved.

Riding Establishments Act, 1964.

This Act is administered by the West Sussex County Council. Ten establishments in the Rural District are licensed by that Authority.

Scrap Metal Dealers Act, 1964.

Twenty-two scrap metal dealers are registered under this Act.

The Diseases of Animals (Waste Food) Order, 1957.

The West Sussex County Council delegated their powers and duties under this Order to the District Council in September, 1966.

Offices, Shops and Railway Premises Act, 1963.

A total of 651 visits of all kinds were made to registered premises during the year, and the following table gives details of the number of premises registered and the number receiving a general inspection in 1966:-

Offices, Shops and Railway Premises Act, 1963 (Contd.)

Part VIII OF THE ACT

Outwork (Sections 133 and 134)

Notifications of two Outworkers were received, both concerned with wearing apparel etc.

Registered Common Lodging Houses.

There are no such premises in the District.

Prevention of Damage by Pests Act 1949.

The rat destruction service gives free advice and destruction of rats and mice on private premises, but a charge is made at commercial buildings. One Rodent Officer and two Rodent Operators are employed.

Complaints of infestations received during 1966 numbered 1,766, an increase of 461 over the figure for the previous year. A summary of work carried out is set out herewith:

West Sussex (Infestation Control) No. 2 Workable Area Committee.

This Committee formed in January, 1944, still meets half-yearly at Littlehampton. Mr. R.S. Hood is the Council's representative on this Committee.

Schools.

No schools in the District were closed during 1966 on account of infectious disease.

The following improvements were carried out :-

Barnham C.	co	Heating of Library. Covered way to toilets.
Birdham C.E.	CED	Roof lights to improve toilet ventilation.

Rose Green C. - Additional lavatory unit; extract fans in toilets; water supply and electric points for Dental Unit.

Boxgrove C.E. - Improvements to lavatories.

Kingsham C. - Power point in hutted classrooms; water supply and electric points for Mobile Dental Unit.

Chidham Parochial - New kitchen.

Selsey C. - Two additional drinking fountains.

Slindon C.E. - Staff toilet.

Westbourne C. - Electric heater in Reception Classroom.

The new Westhampnett C.E. Primary School was taken into use in October, 1966, resulting in the closure of the old Oving Parochial and Westhampnett C.E. Schools.

Mortuary Accommodation.

There are no public mortuaries situated in the Rural District, but by agreement, use is made when necessary of mortuaries owned and maintained by either the Chichester City Corporation or the Bognor Regis Urban District Council. Admissions from the Rural District numbered 42 and 22 respectively during 1966.

Petroleum (Regulation) Acts, 1928 and 1936.

The following premises were licensed during 1966 to keep petroleum spirit:

(a)	Garage	premises	for	re-sale	• •	0 0	69
-----	--------	----------	-----	---------	-----	-----	----

(b) Commercial and agricultural consumers (not for re-sale) ... 117

INSPECTION AND SUPERVISION OF FOOD PREMISES.

Milk and Dairies.

Twenty-seven visits were made to milk distributors, dairies and milk shops.

Three herd samples and four individual cow samples submitted for biological examination proved negative to Brucella Abortus and M.Tuberculosis. Two specimens of pasteurised milk submitted to the Methylene Blue and Phosphatase Test were satisfactory.

Milk and Dairies (General) Regulations, 1959.

Three applications to register as Distributors of milk were received and approved during the year. There are 69 distributors of milk now registered in the District.

The Liquid Egg (Pasteurisation) Regulations, 1963.

There are no egg pasteurisation plants in the district.

Food Hygiene (General) Regulations, 1960.

Details of food premises which are subject to Regulation 16 and 19 of the above Regulations are as follows:

Premises	Number of		Premises fitted to	Premises to which	
FremTees	Premises	Inspec-	comply with		comply with
		tions	Reg. 16	applies	Reg. 19.
Bakehouses	8	21	8	8	8
Bread & Confectionary	9	(8	7	7
Butchers	30	(300	30	28
Catering Establishments	70	(70	70	70
Greengrocers	22	(21	18	17
Grocers	149	(137	130	128
Fish (Wet & Fried)	13	(392	13	13	13
Licensed Premises	100	(89	96	96
Sweets, Ice Cream, etc.	49	(43	30	30
Chemists	13	(12	11	11
Poultry Processing	3	(3	3	3
Totals	466	413	434	416	411

Thirty-two contraventions of the Regulations were observed at food premises and resulted in the service of 27 informal notices. Fourteen complaints of unsatisfactory conditions at such premises were also received, 13 of which were found to be justified and were dealt with informally. No legal proceedings were instituted.

Ice Cream.

Six applications for registration of premises for the sale of ice cream and 2 for the manufacture of preserved food were received and approved during the year.

Ice Cream, etc. (Contd.)

The number of premises registered at the end of 1966 was as follows:

(a) Premises registered for the storage

and sale of Ice Cream .. 223

(b) Premises registered for manufacture of preserved food .. 19

Twenty-two samples of ice cream submitted to the Public Health Laboratory for examination gave the following results:

Grade I (13) Grade II (4) Grade III (1)

Grade IV (4)

Slaughterhouses.

The slaughterhouse at Yapton has remained in use. All carcases and offal from animals slaughtered are inspected by the Council's Public Health Inspectors, and in order to ensure 100% inspection regular weekend duty is necessary.

Visits to the slaughterhouse totalled 447, and details of carcases inspected during 1966 are as follows:

Number killed and inspected	Cattle	Cows	Calves	Sheep	Pigs

1260 Lbs. Chicken Decomposition due to unsatisfactory refrigeration.

31 Tons Potatoes - Decomposition

Unsound meat is despatched to an approved manufacturing company and converted to animal feed, fertilisers, etc. while tinned foods are surrendered to the Department and deposited on the Council's refuse tips.

The Meat Inspection Regulations, 1963.

The following meat inspection charges have been in operation since the 1st October, 1964:

Charges for weekdays, other	(Cattle	2/=
than Saturdays, Sundays	(Calves & Pigs	6d.
and Bank Holidays	(Sheep	4d.
Charges for Saturdays	(Cattle (Calves & Pigs (Sheep	2/6d. 9d. 6d.

Slaughter of Animals Act, 1958.

Seven licences to slaughter animals were granted during 1966.

Food Hygiene (General) Regulations, 1960.

Poultry Inspection.

(i)	Number	of	poultry	processing	premises	within
-----	--------	----	---------	------------	----------	--------

the district .. 3

(ii) Number of visits to these premises 13

(iii) Total number of birds processed during the year .. 640,290

(iv) Types of birds processed .. .

. All types (Mostly Hens)

(v) Percentage of birds rejected as unfit for human consumption

2% (Approx.)

(vi) Weight of poultry condemned as unfit for human consumption

17,680 Lbs.

(vii) Comments:

The figures quoted above refer only to premises used on a regular commercial basis. There are many other similar premises on a much smaller scale where slaughtering is carried out mainly for the Xmas trade.

The Ministry circular 1/67 is not clear as to whether such premises should be included, but recording of these would be a very difficult operation. Where premises are used intermittently, abortive visits would be unavoidable unless legislation requiring notification of intention to slaughter is made.

If Local Authorities are expected to record all such poultry processing premises in the future, irrespective of size, it is clear that additional legislation will be necessary particularly to control days and times of slaughter.

PREVALENCE AND CONTROL OF DISEASES.

Notifications of Measles totalled 426 during 1966 (421 in 1965), otherwise there was no unusual incidence of infectious diseases.

Medical Examinations.

Forty medical examinations for superannuation purposes were carried out during the year. A further 106 examinations for the West Sussex County Council (including 77 candidates for Teachers Training Colleges) were also undertaken.

Cancer

Deaths attributed to cancer during 1966 numbered 127 (74 males, 53 females) = 148 deaths in 1965. The following table gives details of the localisation of the disease:

		Male	Female	TOTAL
Brain	0 0	2	3	5
Alimentary Tract & D	igestive Or	gans:		
Larynx	0 0	4	6	4
Oesophagus	• •	1	===	1

Leukaemia	0 0	6	6	6
Lymphosarcoma	0 0	2		2
Other sites	o •	5	8	13
T	otals	74	53	127

The Cancer Death Rate for 1966 is 2.19 per 1,000 of the population (2.6 for the previous year). The corresponding rates for the Administrative County, and the Urban and Rural Districts of West Sussex are 3.1, 2.7 and 2.9 respectively.

Diphtheria

⁽a) Notifications. No cases of Diphtheria were notified during 1966, nor were any deaths registered as due to this cause. No confirmed cases have occurred in the district since 1946.

Diphtheria (Contd.)

(b) <u>Immunisation</u>. Immunisation against Diphtheria and other diseases is carried out either at the Maternity and Child Welfare Clinics, or by the General Practitioners, and set out below are details of vaccinations of persons under 16 years completed and recorded by the County Health Department during 1966:

Antigen	Completed Primary Courses	Reinforcing Doses
Diphtheria Whooping Cough Poliomyelitis Tetanus	770 729 777 1055	1826 767 1826 1487
Totals	3331	5906

Dysentery

Twenty-two cases of Sonne Dysentery were notified (2 cases in 1965). The cases were spread evenly over the last three quarters of the year.

Food Poisoning

Five cases only were notified (15 in 1965).

Measles

426 Measles notifications were received (421 in 1965).

Pneumonia

Thirteen cases of Pneumonia were notified (3 cases in 1965). The number of deaths registered during 1966 as due to all forms of Pneumonia was 47.

Poliomyelitis.

No cases were notified to the Department during the year.

Vaccination against poliomyelitis is available to everyone up to 40 years of age. Application forms are available at the Council Offices at East Pallant House, Chichester; at County Hall and at Health Centres and Welfare Clinics.

Details of vaccinations carried out during 1966 are recorded under Diphtheria Immunisation.

Scarlet Fever.

Eleven cases were notified (11 cases in 1965).

Tuberculosis

Thirteen pulmonary cases were added to the Register - five primary notifications and eight cases moving into the district as transfers from other areas.

Tuberculosis (Contd.)

Six cases were removed from the Register - 5 after being cured of the disease, and I who died though tuberculosis was not the certified cause of death.

The following table gives details of cases on the register and of new cases added during the year:

				onary ses	No		lmonary ses			Cases orms)

6	Cases on Register at 31st December 1966 :	98	75	173	5	12	17	103	87	190

No deaths were recorded as due to Tuberculosis (Death Rate 0.03 in 1965). The rate for the Administrative County was 0.03, per 1,000 of the home population.

Smallpox.

Smallpox vaccinations carried out in the district in children up to fifteen years of age and recorded by the West Sussex County Council were 794 primary vaccinations and 254 re-vaccinations.

It was necessary to carry out a fourteen day surveillance on a number of passengers arriving in the district by sea or air either from declared smallpox endemic areas or as possible contacts of suspected smallpox cases, particularly when the traveller was not in possession of a valid international certificate of vaccination.

Whooping Cough

Two cases were notified in 1966 (20 in 1965).
